| Portfolio | GitHub | LinkedIn

PROFESSIONAL SUMMARY

Front-End Engineer skilled at building scalable, high-performance web applications. Committed to delivering responsive, user-focused solutions.

CORE SKILLS

Frontend: React.js, Next.js, JavaScript, TypeScript, HTML5, CSS3, SCSS, Tailwind CSS, ShadCN/User Interface.

State Management: Redux, Zustand, React Query

APIs & Backend: REST APIs, Axios, Firebase/Firestore.

Tools & Workflow: Git, GitHub, Postman, Jira, Agile/Scrum, Figma, Teams, Slack

Other: Responsive Design, Cross-Browser Optimization, CI/CD basics

EXPERIENCE

Front-End Engineer | Freelance Projects
Dec 2024 – Present | Remote

- Delivered fully optimized business websites using Next.js, TypeScript, and Tailwind CSS, improving client visibility and online engagement.
- Translated Figma designs into responsive User Interfaces reducing design-to-development turnaround by 30% and ensuring 100% mobile compatibility.
- Improved website performance through code reusability and optimization, cutting page load times by up to 40%.
- Collaborated with clients in iterative feedback loops, achieving 100% client satisfaction and repeat contracts.
- Applied accessibility and responsive design best practices, ensuring compliance with WCAG 2.1 standards and improving inclusivity.
- Enhanced maintainability by writing scalable, testable components, reducing future development effort by 25%.

Key Achievement: Helped launch platform web application within acceptable timeframe, contributing to successful product adoption.

Front-End Engineer | Isentry Technologies
Aug 2024 – Jan 2025 | Remote

- Built core features for **GOLDIES App** (e-commerce), enabling online sales of baked goods.
- Integrated payment APIs and order processing, ensuring 100% secure transactions and improving checkout efficiency.
- Translated Figma designs into fully responsive UIs, achieving cross-device compatibility (mobile-first approach).
- Implemented authentication system (Admin sign-in, OTP verification, secure storage), enhancing data protection.
- Redesigned navigation and footer components, reducing navigation errors by 20% and improving user retention.

Key Achievement: Reduced customer onboarding time by 30% with optimized authentication flow.

Front-End Engineer | Tech4Dev
Aug 2023 – Sep 2024 | Remote

- Developed **Beauty Expert App**, an online marketplace connecting beauticians to customers.
- Built customer booking flows, improving appointment scheduling efficiency.
- Created expert onboarding and authentication pages, driving 40% faster sign-ups.
- Built customer support & service pages, enhancing user engagement and reducing support tickets.
- Delivered expert upload functionality, allowing professionals to manage resources seamlessly.

Key Achievement: Helped launch platform MVP within **12 weeks**, contributing to successful product adoption.

NOTABLE PROJECTS

- **Goldies App** – Collaborated in an ecommerce app. (Next.js, TypeScript, REST APIs, ShadCN).
- **Finloop App** – Built Admin Dashboard for loan management (Next.js, TypeScript, REST APIs, ShadCN).
- **PostCraft App** – Blog platform with CRUD functionality & like/dislike feature (React, Firebase, Axios).
- **Kiddies Auto E-Commerce** – Built e-commerce site with React & Tailwind.
- **Beauty Expert Website** – Contributed to team-based e-commerce build using GitHub collaboration.

TRAINING & CERTIFICATIONS

- Women Techsters Fellowship – Software Development, 2024
- Coursera – Introduction to Bash Shell Scripting, 2024
- Meta (Coursera) – Introduction to Front-End Development, 2024
- freeCodeCamp – Responsive Web Design Certification, 2023.

EDUCATION

Obafemi Awolowo University (OAU), Ile-Ife
B.Sc. Estate Management, 2019.
